8 Sept 1980

(Struggle for Central legislation on
Agricultural Labour, & Pensions for them)

Dear comrade Yellamanda Reddy,

I received your letter. We met
of our Federation Council and chalked
out a programme. Dec 21st is
the day for demanding a comprehensive
legislation by Central Govt. There
will be campaign throughout
the state before 21st. On Dec 8th,
we are having an anchor day for
requesting the State Govt. for some
advancements ^{to the} ~~in the~~ pension
conditions. There are some new
rules, which will obstruct to get

pension for eligible workers.

Membership campaign is going on.

Already, received the dues amount
of about 60,000.

Hope you are doing well

Yours faithfully

Bewle

From

THE INHABITANTS AROUND OTTAKKAL
RAILWAY STATION, OTTAKKAL.
QUILON, KERALA.

To

THE HON. MINISTER FOR RAILWAYS,
GOVERNMENT OF INDIA,
RAIL BHAVAN, NEW DELHI.

Sir,

WE the inhabitants around Ottakkal Railway Station and nearby villages submit the following for your kind attention and favourable disposal.

It is understood that there is a move to reduce Ottakkal Block Station as a train halt. This station which is situated in Ghat Section accessible only by rail, actually caters the needs of the surrounding villages, consisting of about 8,000 people and one Tribal Colony with welfare School etc.

Quilon-Shencotta High way (P.W.D.) is two to three K.Ms away from the Railway line and the terrain is very difficult for easy accessibility. We are solely depending on this Railway Station for the transport of our Agricultural produces to Punalur and Thenmalai which are the only nearby marketing places. Ottakkal is also a pilgrim centre for Muslims and there is a regular flow of passengers from Tamil Nadu to the Ottakkal Mosque. There is an average issue of ten season tickets from this station. During season the monthly collection comes to Rs.4,000/- and above.

The approach road from the said Highway to the Railway station is being taken up by Kerala Government for metalling and tarring at a cost of Rs.10/- lakhs. When this road is completed the collection of the Railway station shall improve considerably.

The Kallada Irrigation Dam which is only about 4 Kms. from this Station has been scheduled to be commissioned by July next and this place is going to become a Tourist Centre by the formation of a big lake about 5 Sq.Miles, surrounded by very beautiful natural forest. This fact must be given the top importance in taking a decision about the status of the Railway Station.

Any move to reduce this station as a Train Halt will be detrimental to the Developments Schemes which are being considered by the Government and Local authorities.

Praying for your esteemed consideration and favourable orders.

Yours faithfully,

the undersigned.

Copy submitted to the M.L.A. and M.P. for favour of kind attention.
