Thanking you,

Yours sincepely. (M. M. Rohatgi General Secretar Delhi Division.

Programme

(Inaugural Session)

1. Inaugural Address

2. Speeches by Prominent Trade Union Leaders & M.Ps.

3. Message and Greetings

4. Concluding Speech by the President

Northern Zone Ins. Employees' Association Head Office :- LAKSHMI INS. BLDG. NEW DELHI

Dear Friends.,

We are holding the 3rd Annual Conference of our Association on 26th and 27th July, 1958. The Inaugural Session of the Conference will be held at 3 P.M, on Saturday, the 26th July, 1958 at Maharashtra Bhawan. Opp. Paharganj Police Station, New Delhi.

We shall be much pleased to receive you in person on the auspicious occasion. However, if due to prior engagements you are unable to attend the Session in person you may please send us your valuable message for the guidance of Insurance employees.

23rd July, 1958

Fraternally Yours, D. C. Gupta Chairman Reception Committee.

Reasons

The High Power Committee congratulates the Central Zone for Non-cooperation movement. After considering the action taken by the Central Zone, the members of the High Power Committee was satisfied that the field workers were not only feeling frustrated but it was also found that deliberate attempts were made by the management to demoralise them with a view to cow them down and make them submit to the revised formula which was never officially given to National Federation, it was further brought to the notice of the High Power Committee that all attempts made by the President to persuade the authorities of the Corporation to call the 2nd Bi-Partite conference as promised, did not evoke any response as a result of which the action of the Central Zone, though isolated, was a voluntary reaction of all the field workers of the Central Zone. It would, therefore, be in the fitness of things that the other Zones should not only take this matter seriously but contemplate a line of action which would spread this struggle throughout the country. The reports made by the various Zonal representatives to the High Power Committee of the National Federation show that after the promulgation of the standardisation order and the fitting in circular there is a general sense of dissatisfaction prevailing to all the Zones. The High Power Committee, therefore, besides endorsing the action of the Central Zone, direct that all the other Zones to move in the matter on the lines suggested as below.

1. While accepting their respective salaries for the month of January all Field Workers are to submit the draft Protest letter as directed by the National Federation.

Protest on account of the following:

- 1. Basic Salary has been reduced.
- 2. Total emoluments have been reduced.
- 3. Presence of the clause 9 (a) where the due enquiry has been deleted in the Government Order the Corporation reserves the right of deciding the scope of the enquiry and ignores the security of service and (b) in the terms and conditions of service envisaging termination of field employees without assigning any reason.
- 4. Clear absence of the normal Provision of automatic increments in the terms and conditions of service.
- 5. The Principle of the No Cost No quota system of appointment as demanded by the National Federation and subsequently endorsed by the Chairman has been totally ignored by the terms offered.
- 6. There is no provision of fitting in of the Field Workers as per the Charter of Demand submitted by the National Federation and that it does not define adequate standard for judging individuals. The revised categorisation scheme has neglected the past experiences.
- 7. That the increments for better work are not with effect from 1-9-56, the appointed day.
- 8. It proposes to demote the confirmed employees to probationers.
- 9. That the Junior workers are subjugated to suffering at the time of fitting in.
- 10. That the Corporation did not honour its commitments to the Probationer Inspectors appointed after 1.9.56.
- 11. That there has been discremination in the matters of appointment of Branch Manager, Asstt. Branch Manager (Development), Junior Officers and Claim investigation officers.
- 12. Agents' commission has been reduced and terms and conditions of agency made much stricter.
- 13. That the commitments made by the Chairman to the Representative of the National Federation have not been honoured by the scheme.
- 14. That the Governent has rushed in with an order in contravention of the Promise of the Chairman of the Life Insurance Corporation to settle matters finally with National Federation.

15. The rights and privileges of the Supervisory Officers have been ignored.16. No Provision of Promotion of the field officers when the maximum/is reached.

17. That part of the total remuneration has been arbitrarily detained and the total emoluments are not being taken for fitting in.

(2)

- 18. That the categorisation scheme envisages terminations.
- 19. That uniform conditions during the period of last 16 months were not available and rules and regulations carried out before 30-12-57 have not been duly framed.
- 20. That the rationalisation of remuneration and terms of service conditions had already been carried out for the supervisory class through provisional appointment letters issued to the present Executive personnel of the Corporation under section 11 clause 2 of the Corporation Act.

1.3.4 general design of a set X 4(6) -

The Migh Power Committee

1. While accepting their respective solaries for the structure dor the structure does any edd are to submit the disfit Protect latter as $-\mathbf{x}\mathbf{x}\mathbf{x}^{-1}$, the distinct Protect latter as

Frates' of account of the following:

- J. Basic falley his been reduced .
- 2. Total equilateria have been reduced.
- 3. Presence of the clause 9 (a) a here the due anyour place bern deleted in the set of the clause of the clause of the reserves the right of develop the above of the country of second provided and (b) in the term of the second place of the reserves without assistance only reserve.
 - Olear absence of the normal Provision of submatic increments in the triev tions of survice.
- 5. The Principle of the No Cost No quota system of appointment as determined by the Panetasion and subsequently endorsed by the Observan bus been subsequently endorsed by the Granus offered.
- 4. There is no provision of fitting that the Posit Workers is par the Clarte submitted by the Vational Federation and must provide initialized adequate de judging individuals. The revised caleporisation where has an low experiences.
- Phat the increments for holter work are not with effect from 1 shift the one
 - whether the stand of the stand
 - That the Jacist workers are subjugated possible at the data of atting t 10 That the Corporation did fort houseness as committeeed duties in data?

- 13. That the ormanization into made by the Chair can be the Top resolutive of the Poleration have not began have dued by the relative.
- 14. That the Recomment has reasoned in with the order in contraction of the Press Obsirman of the Dife Insurance Corporation to actile matter finally Pederation.

August 12, 1958

General Secretary, Indore Division Insurance Employees' Association, 50 Gautampura, INDONE CITY

Dear Comrade,

We thank you for your letter of 5th August on the Second Annual Conference of your Association.

On behalf of the AITUC, we wish your conference all success.

We are glad to find that the insurance employees have come more and more into the field of trade union activity and organisation and have come to assume an important role in the building of strong united unions to defend their vital interests. Beset with many special problems as you do, we are sure your second Annual Conference would succeed in laying down concrete plans of action to win your outstanding demands.

With warm greetings,

Yours fraternally,

(K.G.Sriwastava) Secretary

INDORE DIVISION INSURANCE EMPLOYEES' ASSOCIATION

50 Gautampura, Indore City

5th Aug. 1958.

Dear Comrade,

3 AUG 1958

We have pleasure to inform you that the Second Annual Conference of the Association is being held at Indore on 16-17th August 1958.

We invite you to kindly attend the same and greet the occasion.

If however, it is not possible for you to attend the Conference, we would request you to please send your message for our guidance and inspiration.

Yours fraternally,

GENERAL SECRET ARY .

LIFE INSURANCE **CORPORATION** Investment Policy

By A CORRESPONDENT

IN every country with a highly developed economy, the busi-ness of life insurance plays a significant role not only in pro-viding the finances necessary to strengthen the economy but also to maintain it at the fortified avail level.

During the twelve months that have just elapsed since its for-mation, the Life Insurance Cor-poration of India has tried to evolve an investment policy de-signed to emphasise the part it will eventually play as a major investor in India. The Corpora-tion's investment activities have a special significance especially at this time when, in the con-text of the development plans of the country, an integrated plan of investment is necessary not only for the proper and balanc-ed development of the country's economy but also for securing the greatest good to those who, by their hard-earned savings, contribute to the funds that are invested. During the twelve months that

THE LIABILITY

THE LIABILITY To comprehend the investment policy of the Corporation in its proper perspective, it is well to remember that the funds repre-sent the liability of the Corpora-tion to its policy-holders and should be kept invested in secu-rities and other assets that do not diminish in value, that give the highest possible returns on the investments and benefit the people who have contributed to the funds. That would suggest that the investments must be in unimpeachable securities, must be properly distributed as to class as well as maturity dates and must be such as to advance the economic conditions of the policy-holders. Constituted as the Indian in-vestment market is today, not much choice is left for the in-vestment of life insurance funds. Apart from government and semi-government loans which,

ž

0

ıl le lt vestment of life insurance funds. Apart from government and somi-government loans which, with their tradition of security offer little opportunity for real diversification except to a limit-ed extent in respect of matu-rity dates, the security markets present only a very limited range of first-class industrial securities, such as debentures, preserence shares and ordinary shares which occupy an important place in a life insurance company's invest-ment portfolio in the industrially advanced countries. Thus, where security of invested funds and the rate of returns are primary considerations, investments must perforce be confined to a limited perforce be confined to a limited field. Two

Two considerations weighed with the Corporation in decid-ing upon the types of invest-ments purchased during the past twelve months. The first of them, namely the stratic nature of stock exchange securities dur-ing the period, commencing roughly from the inauguration of the Corporation, gave an op-portunity for buying up first-class scrips at attractive rates. Secondly, there was the need for stepping up the tempo of investments in the first year of considerations weighod C BOLO FES

Contraction and the second second

the second Five-Year Plan and, in doing so, to follow an integ-rated pattern which would holp in the ultimate realisation of the targets fixed under the Plan.

GOOD RESULTS

These two considerations, which sometimes conflicted with each other, put/the utmost strain on the Corporation and necessi-ment to énsure proper balance, tated the exercise of fine judg-Nevertheless, the results were, by and large, extremely good and the Corporation has emerg-ed with flying colours so far as its investments are concerned. On September 1, 1956, when the Corporation took over the assets of the "controlled busi-ness" of insurers, investments stood at Rs. 341 crores, of which Rs. 171 crores (50,1 per cent.) represented Government of India securities, Rs. 79 crores (23.00 per cent.) Indian State, foreign. considerations. These two

represented Government of India securities, Rs. 79 crores (23.00 per cent.) Indian State, foreign, municipal and other approved securities, Rs. 57 crores (16.8 per cent.) equities, Rs. 15 crores (4.4 per cent.) loans on mort-gages of properties and Rs. 19 crores (5.5 per cent.) land and house properties. There was also a sum of Rs. 71 lakhs represent-ing 0.2 per cent. in other loans. Of the State Government secu-rities Rs. 7.16 crores repre-sented the assets of the control-led funds of the public branches of the insurance departments of the Governments of the States of Mysore and Kerala (formerly Travancore-Cochin) and after negotiations, these assets were treated as 4 per cent. loans to the respective governments to be repaid in 20 equal instal-ments of principal. The net in-vestments after September 1, 1956, totalled Rs. 35.29 crores distributed in the following manner: Class of Investments Rs. in manner: Class of Investments

Rs. in Crores

- 1. Government of India 14.82
- securities 2. State Government and other approved
- securities 3. Debentures, 10.36

and other approved securities 10.36 3. Debentures, prefer-ence and other ordi-nary shares (These figures represent net additions after deducting sales.) A major statement of policy concerning the investment of the Corporation's funds was the solemn assurance given by the Government on the floor of Par-liament that the proportion of investments in the private sector would not be allowed to fall be-low the pre-nationalisation level. The Corporation has been very careful to ensure that the private sector was given all the support it possibly could with the result that its investments in deben-turee, preference and ordinary shares of companies were subs-tantial. tantial.

tantial. The bulk of the purchase in Gavernment and other approved securities during the period was in securities of the State Govern-ments. The net addition to Gov-ernment of India securities until just before the recent loan was floated was about Rs. 27 lakhs, after deducting the securities sold during the period. Nearly a crore of rupees was also invest-ed in Government-guaranteed and Continued on mark 7 col 6 Continued on page 7, col. 5

1287 - ----

other approved securities and the proportion of Indian State Government securities purchased during the 11 months ending July 30, 1957, to other pur-chases in government and ap-proved securities was rough-ly 2 to 1. For obvious rea-sons, there can be no set rules for the pattern of in-vestments in gilt-edged secu-rities, except to the extent dic-tated by the need to keep in-vestments in long-term rather than in short-term securities. In August, the Corporation invest-ed over Rs. 16 cores in the new loans floated by Government. The entry of the Corporation as a prominent buyer lent strength to the equity markets and helped sustain the confidence of the investors during a fairly long period when economic and financial developments had se-

long period when economic and financial developments had se-riously undermined the confidence of the regular operators and threw them into a state of near-panic. Supporting scrips, the in-trinsic value of which was beyond

question, at prices which ensur-ed an attractive return on the investment, the Corporation did not hesitate to acquire substan-tial holdings in well-estab-lished industrial, manufacturing and commercial enterprises when inshed industrial, manufacturing and commercial enterprises, when such support was the only factor which prevented the markets from collapse. This happened more than once and especially in the month of May when the markets reacted strongly to the budget proposals.

There can be no two opinions the need to sustain the rength of the investment on the need to sustain the strength of the investment markets if the interests of policy: holders are to be served ade-quately, for the strength of the market is closely linked up not only with the current economic conditions inside the country but also with the development programmes so necessary for economic advancement. By its operations, therefore, the Cor-poration fulfilled its sacred duty to the policy-holders and, at the same time, emerged as a sub-stantial investor capable of sus-tained optimism and of stabilis-ing the markets to the ultimate good of the people.

ing the markets to the ultimate good of the people. The bulk of the purchase in the quity field during this pe-vield was, of course, in selected outport to debentures and pre-tector to debentures to equities within the support to equites and was marked by calm sobrie-tivites to well-known scrips or to the stocks of well-established oncerns. Once the need for en-wring the security of funds, profitable returns and the ulti-mate good of the intending and went boldy ahead and even of new issues. A total of or The issues of which Rs. 18 lakhs in debentures, Rs. 58 lakhs in preference shares and Rs. 25 lakhs in ordinary shares.

To The Editor, "Times of India" Sir,--I was both interested and intrigued to read in The Times of India of September 4 a special contribution from New Delhi under the heading "In-direct Subsidy to Coastal Ship-ping" by The Times of India News Service. I am amazed at, the naivety of whoever has contributed to this misleading and tendentious report. It is stated that while the average cost of transport by

the average cost of transport by rail to the South works out to Rs. 43.5 per ton, the correspond-ing cost by sea is as much as Rs. 70.5 or approximately 63 per cent. more than the rail route. route.
